

fivefold binary record-equal training / species-equal evaluation

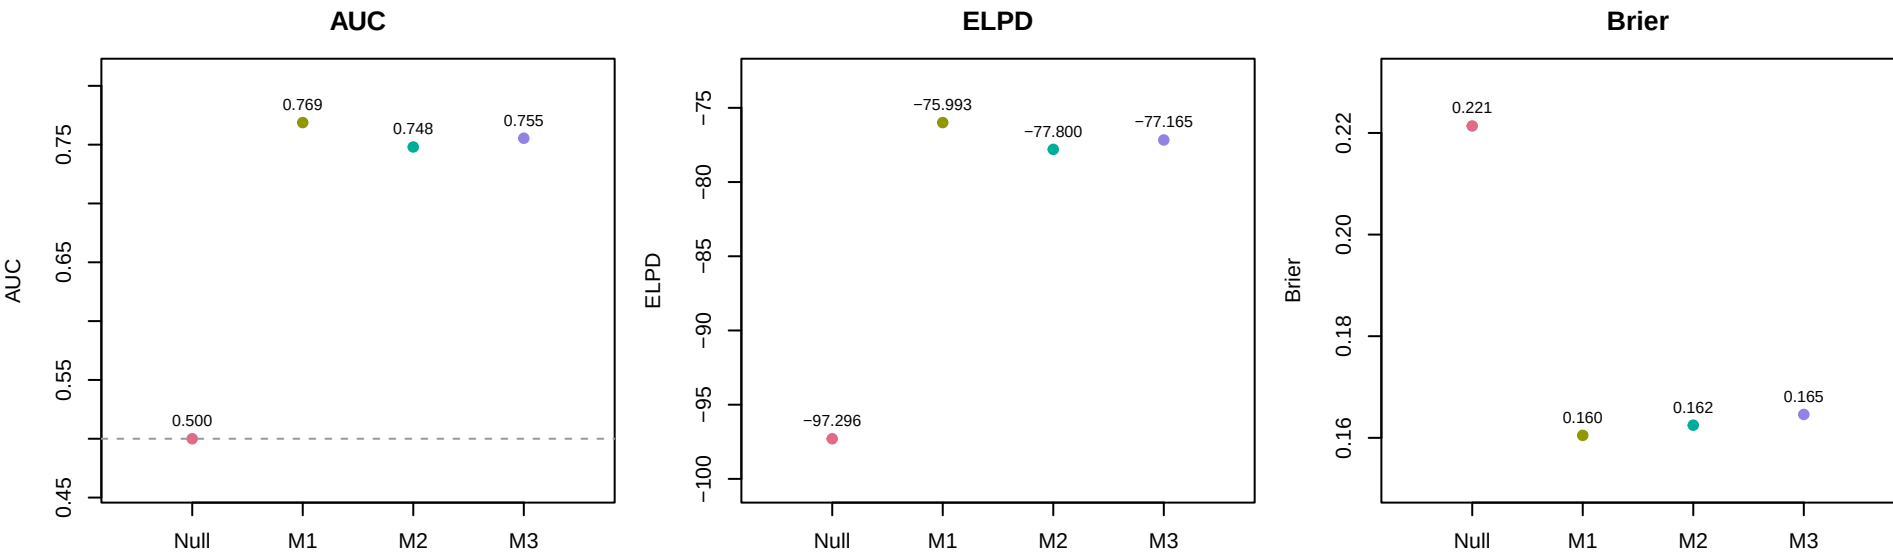

OOF point estimates; each CV design run once. Error metrics are in proportion units.

fivefold joint_bb record=equal training / species=equal evaluation

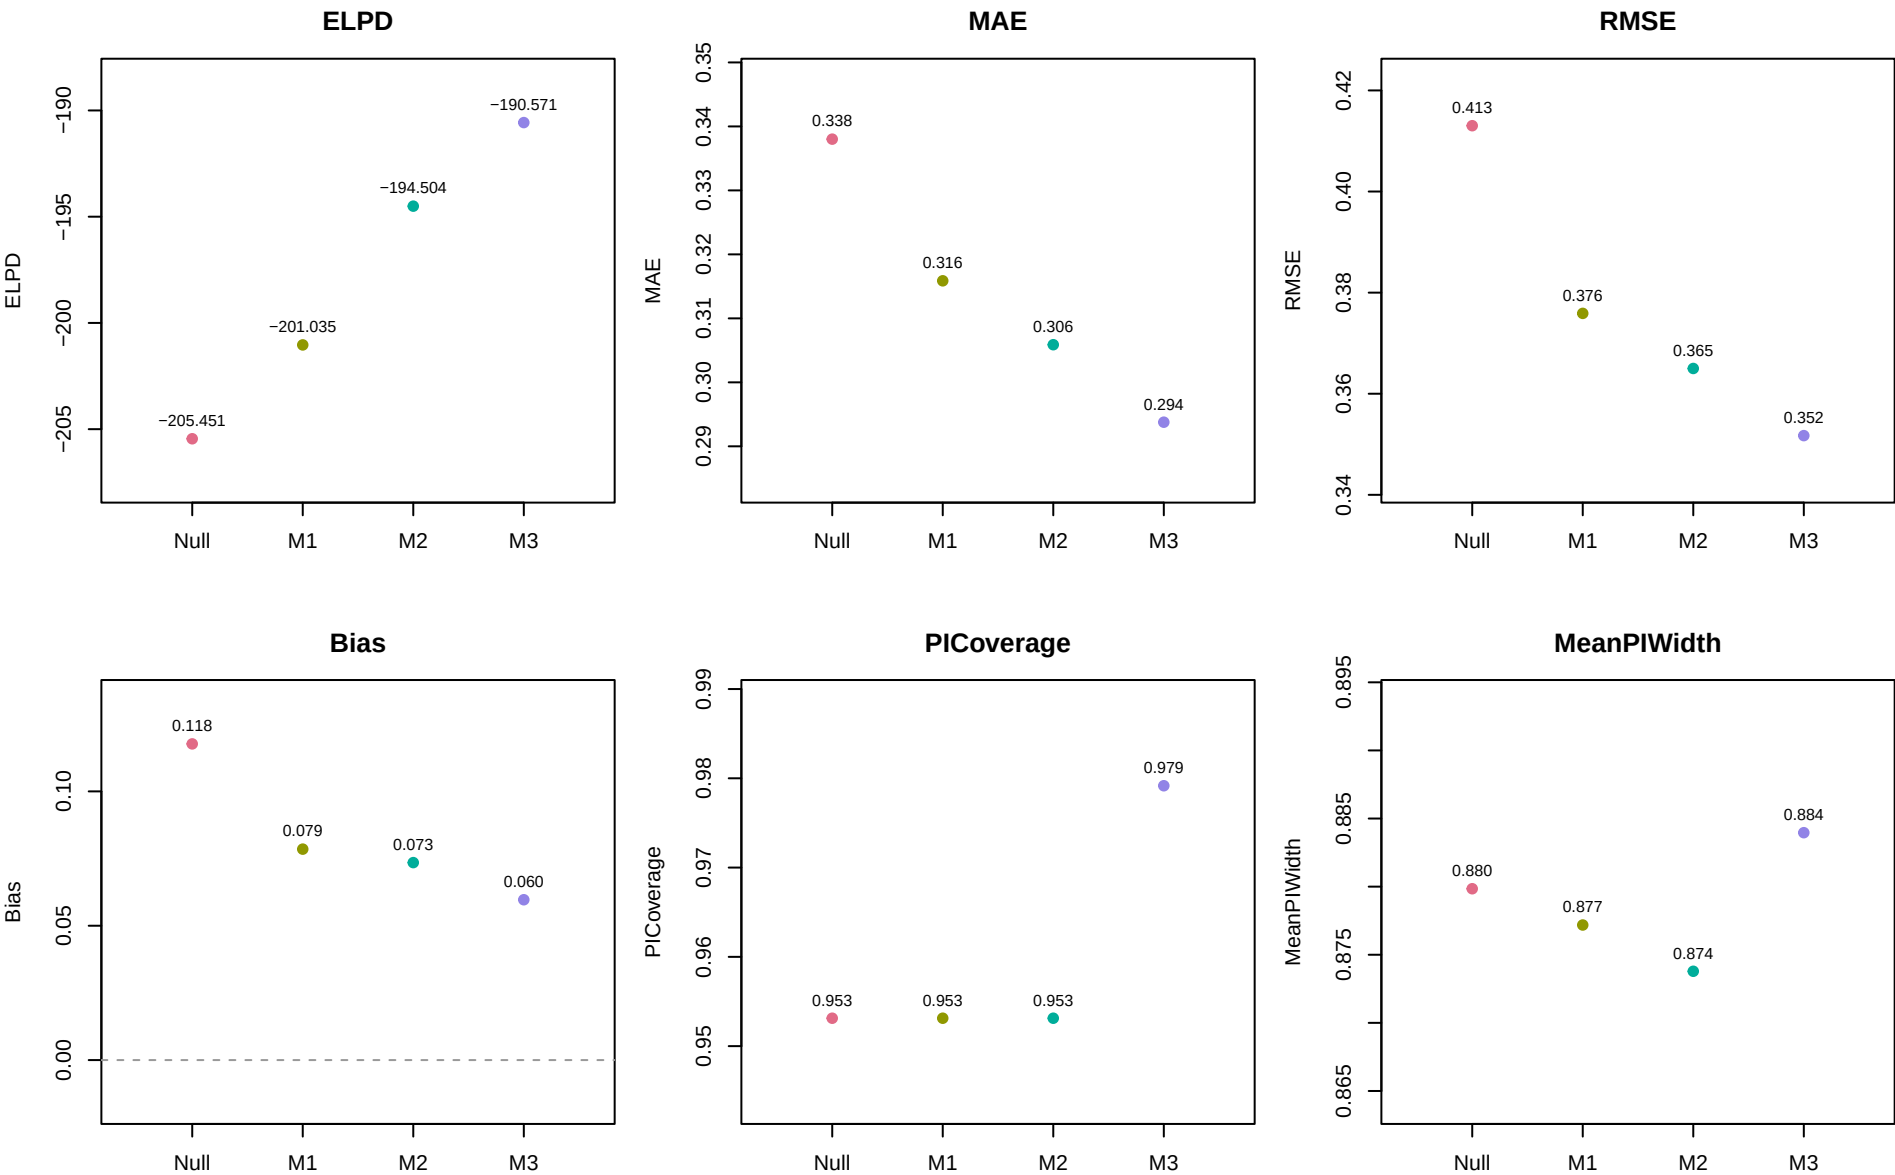

OOF point estimates; each CV design run once. Error metrics are in proportion units.

tenfold binary record-equal training / species-equal evaluation

OOF point estimates; each CV design run once. Error metrics are in proportion units.

tenfold joint_bb record-equal training / species-equal evaluation

OOF point estimates; each CV design run once. Error metrics are in proportion units.
